

**Key Facts:**

Euroclad manufacture profiled sheets in uncoated and coloured coated steel and aluminium, including curved sheeting, curved flashing and fabricated details, liner panels, flashings and accessories allowing architects or specifiers the utmost flexibility when considering a new project.

**Coverage:**

Euroclad has over 20 years experience in the UK.

**Installation & Training:**

Only Latchways trained personnel are permitted to install the Constant Force post and ManSafe componentry. Following installation, Latchways will arrange for the system to be tested, certified and tagged prior to use.

Familiarisation training for the building owner is available, as is an annual inspection programme, thus ensuring that the system is correctly maintained and complies with European safety standards.

For details of approved installers, ongoing advice and support services contact Latchways on +44 (0) 1380 732700.

**Technical Considerations:**

EuroSeam is a true standing seam system, which effectively “zips-up” the rolled side lap. The EuroSeam product provides security without detracting from the Architects requirements for flexibility in terms of aesthetics. The EuroSeam system is capable of being adapted to accommodate the structural, thermal, or acoustic demands of almost any project.

Should you require a system on the Euroclad Trapezoidal roof profile, please contact Latchways technical department on +44 (0) 1380 732700.

For information regarding Euroclad built up on site and SF500 secret fix roof profiles, please refer to sections 4 and 5 respectively.

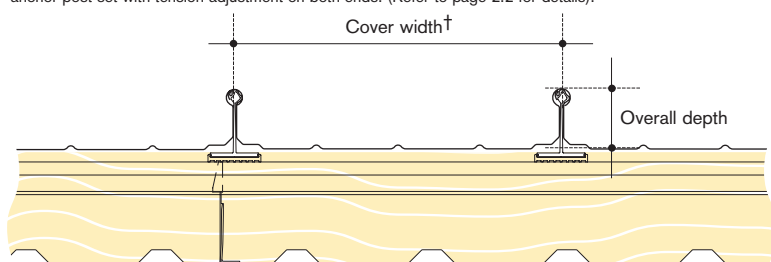

**Specification details for Euroclad Standing Seam Roofing Systems:**

**EUROSEAM 300, EUROSEAM 400, and EUROSEAM 500 (Aluminium)**

Cover width	End anchor post set*	Intermediate post set	90° Corner post set	Variable corner post set	End anchor post set**	Pendulum post set
300	84001-00	84002-00	84003-00	84004-00	84005-00	84006-00
400	84001-00	84002-00	84003-00	84004-00	84005-00	84006-00
500	84101-00	84102-00	84103-00	84104-00	84105-00	84106-00

Cable order code: 00900-00 Transfastener order code: 85085-00

\*Standard end anchor post set with tension adjustment on one end. \*\*For extra long spanning lengths use end anchor post set with tension adjustment on both ends. (Refer to page 2:2 for details).

**Profiles & widths:**

Overall depth	Cover width	Panel name
75	300	EUROSEAM 300
75	400	EUROSEAM 400
75	500	EUROSEAM 500

The standard colour of the post is Metallic Silver (Trimate paint K903/560/9). Other colours are available to order at additional cost subject to availability and lead time. Contact Latchways technical department for further information.

† Latchways reference to cover width is defined as the width of the fixing points for the Latchways base plate.
