

Key Facts:

A Steadman & Son (usually known as Steadmans) are one of the leading manufacturers of roofing and cladding, supplying high quality cladding materials from their sites in England, Scotland and Northern Ireland. They offer total cladding solutions, which they deliver with their dedicated haulage fleet.

Coverage:

Steadmans is a family business that through continuous investment and ongoing product development has gained a reputation for quality products and reliable service, supplying the UK construction industry nationwide.

Installation & Training:

Only Latchways trained personnel are permitted to install the Constant Force post and ManSafe componentry. Following installation, Latchways will arrange for the system to be tested, certified and tagged prior to use.

Familiarisation training for the building owner is available, as is an annual inspection programme, thus

ensuring that the system is correctly maintained and complies with appropriate safety standards.

For details of approved installers, ongoing advice and support services contact Latchways on +44 (0) 1380 732700.

Technical Considerations:

Steadmans trapezoidal profiles are manufactured in a process certified to ISO 9001:2000. AS Profiles are made to withstand the rigours of the building process but attractively designed to complement architectural features and are suitable for use on roof slopes of 4° or more. The AS Twin Skin system is available in a variety of top sheet profiles, in a wide range of colours and coatings. AS Twin Skin combines a top sheet, bar and bracket spacer system and liner sheet, allowing a depth of 60 – 250 mm depending on the thermal performance required.

Specification details for Steadmans Built Up On Site Roofing Systems:

AS Twin Skin

Cover width	End anchor post set*	Intermediate post set	90° Corner post set	Variable corner post set	End anchor post set**	Pendulum post set
333	82001-00	82002-00	82003-00	82004-00	82005-00	82006-00
400	82001-00	82002-00	82003-00	82004-00	82005-00	82006-00

Cable order code: 00900-00 Transfastener order code: 85085-00

*Standard end anchor post set with tension adjustment on one end. **For extra long spanning lengths use end anchor post set with tension adjustment on both ends.

Profiles & widths:

Overall depth	Cover width	Pitch		Panel name
24	333	166.6		AS24/1000R
30	400	200		AS30/1000R
34	333	166.6		AS34/1000R
35	333	333		AS35/1000R

The standard colour of the post is Goosewing Grey (BS 10-A-05). Other colours are available to order at additional cost subject to availability and lead time. Contact Latchways technical department for further information.

† Latchways reference to pitch is defined as the width of the fixing points for the Latchways base plate.
